CL-3500B

CONTACT LUBRICANT CL-3500B (Electric  
Contact Lubricant for Precise Ele

**Packaging** Aerosol 400g/Can, 20cans/Box

**Unit :**

## Features

---

- Excellent performances like Low-Torque, High Speed and Long Life
- Formation of anticorrosive lubrication protection film.
- Nonformation of carbon on electric contact.
- Stabilizing contact resistance to prevent noise

## Uses

---

- Bearing lubricant for electrical motors, Spindles and other mechanical devices.
- Battery post, Headlamp, Tail-Lamp
- Plastic lubricant for anti-friction
- Electrical Harness plug Assemblies
- Electrical Switch Contacts
- Radio Antenna Assemblies
- Aircraft Switch Assemblies
- High Voltage Breaker Assemblies
- Connectors in the Primary Circuit of Solid-state Ignition, etc.

## Cautions

---

- Provided good ventilation.
- Do not keep it near fire.
- Avoid direct sunlight.
- Keep it in the well-ventilated cool place 40°C.
